BLUF: Chipotle's footprint is **concentrated, urban-centric, and Midwest-anchored**—a strategy focused on dominating high-density markets rather than evenly expanding nationwide.

Dataset:

- 2,629 stores | 48 states
 - Fields: State, City, Latitude, Longitude
 - Fully clean geospatial data
-

Key Insights

1. Stores Are Highly Concentrated

- California (421) >> Texas (226), Ohio (193)
→ **Meaning:** Focus on high-value states; signs of saturation

2. Expansion Is Urban-Driven

- Most cities = 1 store; few cities = many
→ **Meaning:** Dense city coverage > broad geographic spread

3. Network Is Midwest-Centered

- Avg location ~ central U.S.
→ **Meaning:** Balanced national reach + logistics efficiency
-
